BAGUETTE

Reception

TECHNICAL DATA

reception module	composed of a front panel, a top shelf and shelf supporting brackets. The front panel and shelf are made of 18 mm chipboard (density 720 kg/m³, E1 formaldehyde emission class, compliant with CARB requirements), faced with anti-reflex melamine resins and edged with 0.45 mm ABS for the front panel and 2 mm ABS for the shelf. Each front panel is equipped with 2 steel feet coated with polyethylene (3 feet for panels with a length of 180 cm or more). The front panels and shelves are connected to each other by means of tie rods. The shelf support brackets, positioned on the inner side, are made of zamak and secured with metric screws. Desk connection brackets are also supplied; these are made of 2 mm thick sheet steel, epoxy powder-coated, and fixed underneath the worktop with wood screws. The shelf has a depth of 40 cm and extends 11.1 cm beyond the panel on the visitor side.
closing side panels	made of 18 mm chipboard (density 720 kg/m³, E1 formaldehyde emission class, compliant with CARB requirements), faced with anti-reflex melamine resins and edged with 2 mm ABS (with rounded edges) on the visible sides. The side panel is equipped with 2 steel feet coated with polyethylene. Desk connection brackets are also supplied; these are made of 2 mm thick sheet steel, epoxy powder-coated, and fixed underneath the worktop with wood screws.
