

CLASSE 2

EM 202 Basic - Visitor chair

FREZZA

TECHNICAL DETAILS

unibody	in mesh covered with fabric, eco-leather or leather on the front and finished with horizontal stitching, fixed to an aluminium body made of side and cross elements, joined together to support and keep the mesh stretched. The upholstered mesh backrest adapts to the user's body shape while properly supporting the spine. White or black painted or polished aluminium finish. Available with low backrest.
armrests	<u>in die-cast aluminium</u> with black or white polyurethane elbow-rests. On request, the elbow-rests can be upholstered to match the seat.
device	<u>swivel with automatic return</u> (180° right 180° left rotation) for swivel seat with 5-star base on glides. The device allows the seat to automatically return to its initial position.

fork support	in die-cast aluminium, polished finish or painted in white or black.
base	- <u>5-star base</u> in polished aluminium or with black or white epoxy powder coating. With glides. - oval steel tube <u>cantilever frame</u> (with reinforcing core in the front curvature), chromed or white and black painted.

ergonomics	Classe 2 is equipped with the necessary mechanisms for proper and comfortable use, even for prolonged periods, as long as the following conditions are met: the standard sitting position requires maintaining angles of 90° between torso and thigh, between thigh and leg, and between leg and foot. These last two angles are essential so that the foot, resting completely on the surface below, discharges part of the weight of the lower limb onto it, preventing excessive compression on the back thigh surface and promoting blood circulation to the heart.
