

EM 59 Stool - Task Stool

TECHNICAL DETAILS

backrest

in nylon with CFC-free polyurethane foam padding. Sheet steel backrest-seat connection with up/down backrest height adjustment system (80 mm). Independent lumbar support adjustment system (100 mm). Black polypropylene rear back cover. Available with low backrest.

seat

12 mm-thick beech plywood seat, anatomically shaped, CFC-free polyurethane foam padding. Black polypropylene cover under the seat

armrests

fixed: in black nylon.

device

synchronised adjustable in 4 positions with backrest's tension adjustment according to the user's weight. This mechanism dynamically follows all the user's body, seat and backrest tilt together, relieving tension on the dorsal muscles. The movement tension is adjustable, adapting to the user's body shapes and preferences. The correct seat/backrest tilt angle ensures proper blood flow while reducing the feeling of heaviness in the lower limbs. A soft release system allows the user to control the movement of the backrest when released.

	height of the seat	the s	pring tension	positions			
height adjustment	by gas lift, allows an excursion of 26 cm.						
foot rest	in painted die-cast aluminium, non-slip, height-adjustable. 5-star base in nylon or die-cast aluminium. Self-locking dual-tread rubbered swivel castors, Ø 50 mm, or fixed glides. Polished aluminium Black nylon
