

KEY

Key - meeting chair

FREZZA

TECHNICAL DETAILS

unibody fire-retardant, CFC-free cold-moulded polyurethane foam padding, with steel insert. Finished with horizontal stitching. Available with medium and low backrest.

armrests - in cold-foamed polyurethane, completely upholstered.
- in aluminium with upholstered elbow-rests in the same colour as the seat.
- in steel rod.

support die-cast aluminium fork support, in a polished or black finish.

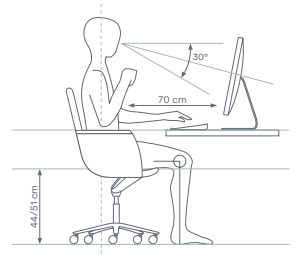

adjustments seat height-adjustment with gas lift system, which allows a 7 cm excursion.

Right lever adjusts the height of the seat

base 5-star base in polished aluminium or black epoxy powder coating. Self-locking, dual-tread, rubbered swivel castors (Ø 60 mm for polished base, Ø 65 mm for black painted base).

ergonomics Key is equipped with the necessary mechanisms for proper and comfortable use, even for prolonged periods, as long as the following conditions are met: the standard sitting position requires maintaining angles of 90° between torso and thigh, between thigh and leg, and between leg and foot. These last two angles are essential so that the foot, resting completely on the surface below, discharges part of the weight of the lower limb onto it, preventing excessive compression on the back thigh surface and promoting blood circulation to the heart.
