

KEY

Key - Visitor chair

TECHNICAL DETAILS

unibody	fire-retardant, CFC-free cold-moulded polyurethane foam padding, with steel insert. Finished with horizontal stitching. Available with low backrest.
armrests	in steel rod.
adjustments	seat height-adjustment with gas lift system, which allows a 7 cm excursion.

Right lever adjusts the height of the seat

base	- <u>4-star base</u> in polished aluminium or black epoxy powder coating on glides Ø 72 cm for Key Visitor.
------	---

ergonomics Key is equipped with the necessary mechanisms for proper and comfortable use, even for prolonged periods, as long as the following conditions are met: the standard sitting position requires maintaining angles of 90° between torso and thigh, between thigh and leg, and between leg and foot. These last two angles are essential so that the foot, resting completely on the surface below, discharges part of the weight of the lower limb onto it, preventing excessive compression on the back thigh surface and promoting blood circulation to the heart.
