

TECHNICAL DETAILS

backrest	low backrest made of fire-retardant, flexible, cold-foamed polyurethane with steel insert.
seat	wooden seat padded with fire-retardant polyurethane foam.
armrests	- <u>in die-cast aluminium</u> with upholstered elbow-rests in the same colour as the seat. - <u>entirely upholstered</u> with polyurethane foam padding and steel insert.
device	<u>automatic return device</u> (180° rh - 180° lh rotation). This device allows the chair to return automatically to the initial position.

base	<u>5-star</u> base in polished aluminium, on glides.
ergonomics	Max is equipped with the necessary mechanisms for proper and comfortable use, even for prolonged periods, as long as the following conditions are met: the standard sitting position requires maintaining angles of 90° between torso and thigh, between thigh and leg, and between leg and foot. These last two angles are essential so that the foot, resting completely on the surface below, discharges part of the weight of the lower limb onto it, preventing excessive compression on the back thigh surface and promoting blood circulation to the heart.

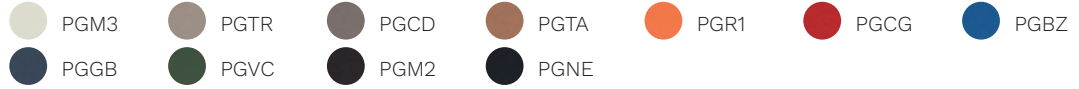

base finishes	Polished aluminium
armrests and elbow-rests finishes	Polished aluminium Upholstered
