CLASSE 2

EM 202 Basic - Executive chair

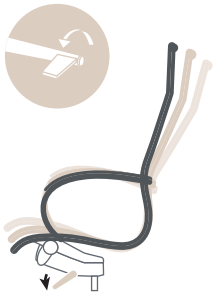

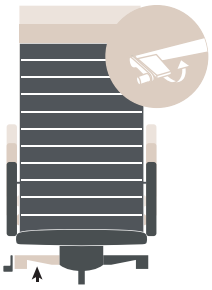

TECHNICAL DETAILS

unibody	in mesh covered with fabric, eco-leather or leather on the front and finished with horizontal stitching, fixed to an aluminium body made of side and cross elements, joined together to support and keep the mesh stretched. The upholstered mesh backrest adapts to the user's body shape while properly supporting the spine. White or black painted or polished aluminium finish. Available with high and low backrest.
armrests	in die-cast aluminium with black or white polyurethane elbow-rests. On request, the elbow-rests can be upholstered to match the seat.
device	tilting device (with polished finish cover) lockable in 4 positions with lateral adjustment of the backrest's resistance in relation to user's weight. This device allows to change the user's position while maintaining the proper trunk/thigh angle. A soft release system allows the user to control the movement of the backrest when released
height adjustment	with gas lift system, which allows a 10 cm excursion.
base	5-star base in polished aluminium or with black or white epoxy powder coating. Self-locking, dual-tread, rubbered, swivel castors for hard floors (Ø 60 mm for polished base, Ø 65 mm for white or black painted base).

Left-hand lever locks the seat in 4 positions

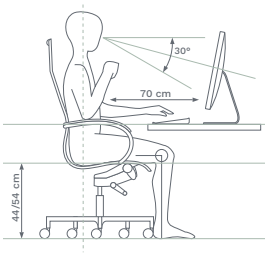

Right lever adjusts the height of the seat

Right-hand outer handle adjusts the backrest's spring tension

ergonomics	Classe 2 is equipped with the necessary mechanisms for proper and comfortable use, even for prolonged periods, as long as the following conditions are met: the standard sitting position requires maintaining angles of 90° between torso and thigh, between thigh and leg, and between leg and foot. These last two angles are essential so that the foot, resting completely on the surface below, discharges part of the weight of the lower limb onto it, preventing excessive compression on the back thigh surface and promoting blood circulation to the heart.

base finishes	Polished aluminium	Black aluminium	White aluminium
armrest finishes	Black polyurethane	White polyurethane	Upholstered
