CLASSE 2

EM 202 Mesh - Executive chair

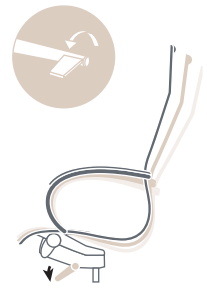

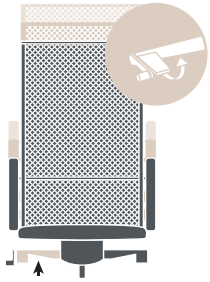

TECHNICAL DETAILS

unibody	with stretch mesh attached to an aluminium frame, consisting of side and cross elements joined together to support and tighten the mesh. The mesh backrest is breathable and adapts to the user's body shape while properly supporting the spine. White or black painted or polished aluminium structure's finish. Available with high and medium backrest.
armrests	in die-cast aluminium with black or white polyurethane elbow-rests.
device	tilting lockable in 4 positions with lateral adjustment of the backrest's resistance and and anti-shock release system. The device allows to change the user's position while maintaining the proper trunk/thigh angle. A soft release system allows the user to control the movement of the backrest when released. The device is covered by a polished finish casing for a touch of elegance.
height adjustment	with gas lift system, which allows a 10 cm excursion.
base	5-star base in polished aluminium or with black or white epoxy powder coating. Self-locking, dual-tread, rubbered, swivel castors for hard fl oors (Ø 60 mm for polished base, Ø 65 mm for white or black painted base) or glides.

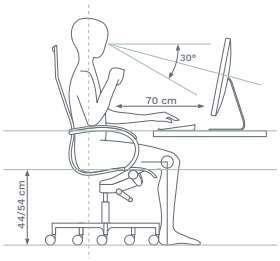

Left lever locks the seat in 4 positions.

Right lever adjusts the height of the seat

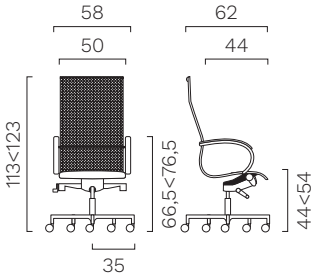

The handle on the end of the right hand lever adjusts the tension of the backrest spring.

ergonomics	Classe 2 is equipped with the necessary mechanisms for proper and comfortable use, even for prolonged periods, as long as the following conditions are met: the standard sitting position requires maintaining angles of 90° between torso and thigh, between thigh and leg, and between leg and foot. These last two angles are essential so that the foot, resting completely on the surface below, discharges part of the weight of the lower limb onto it, preventing excessive compression on the back thigh surface and promoting blood circulation to the heart.	
base finishes	Polished aluminium · Black aluminium · White aluminium	
armrests finishes	Black polyurethane · White polyurethane
