DR

Table with round top

AWARD 2011

TECHNICAL DATA

design C. Bellini

structure	Solid walnut wood, handcrafted finished and coated with a transparent acrylic lacquer. The lacquered version is made of solid Kotibé mahogany and finished with a matte polyester lacquer. The structure is fitted with polyethylene-coated adjustable steel feet (Ø 25 mm), which allow a +10 mm adjustment for floor levelling.
top	glass: for the clear and white-painted versions, 15 mm extra-clear glass is used (toughened in accordance with EN 12150). For the smoked version, laminated glass type 88.1 (8+8 mm) is used. Both glass options feature polished flat edges.
	gres with glass undertop: consisting of a 6 mm marble-effect gres stoneware top bonded to an 8 mm clear glass panel (toughened in accordance with EN 12150) with polished flat edges. The nominal top thickness is 14 mm.
