MAX

Max - Executive chair

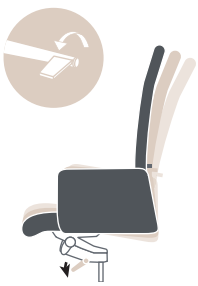

TECHNICAL DETAILS

backrest	made of fire-retardant, flexible, cold-foamed polyurethane with steel insert. Equipped with a height-adjustable sliding lumbar support (70 mm). Available with high and medium backrest.

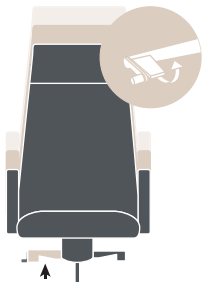

Backrest handle adjusts the lumbar support

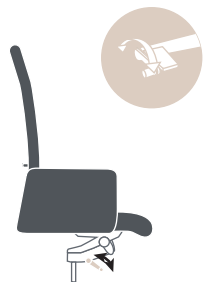

seat	wooden seat padded with fire-retardant polyurethane foam.
armrests	- in die-cast aluminium with upholstered elbow-rests in the same colour as the seat. - entirely upholstered with polyurethane foam padding and steel insert.
device	synchronised seat/backrest device lockable in 4 positions with lateral adjustment of the backrest's tension according to the user's weight. Tilting agles: backrest 25°, seat 16°. This device dynamically follows all the natural movements of the user's body; seat and backrest tilt together, relieving tension on the dorsal muscles. The movement's tension is adjustable, adapting to the user's body shape and preferences. The correct seat/back tilt angle ensures proper blood flow while reducing the feeling of heaviness in the lower limbs. A soft release system allows the user to control the movement of the backrest when released.

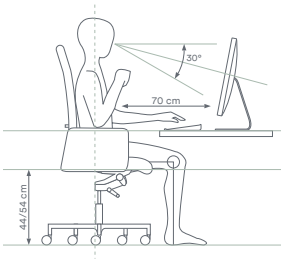

Left-hand lever locks the seat in 4 positions

Right lever adjusts the height of the seat

Final right-hand handle adjusts the backrest's spring tension

height adjustment	with gas lift system, which allows a 10 cm excursion.
base	5-star base in polished aluminium. Self-locking, dual-tread, rubbered, swivel castors for hard floors (Ø 65 mm).
ergonomics	Max is equipped with the necessary mechanisms for proper and comfortable use, even for prolonged periods, as long as the following conditions are met: the standard sitting position requires maintaining angles of 90° between torso and thigh, between thigh and leg, and between leg and foot. These last two angles are essential so that the foot, resting completely on the surface below, discharges part of the weight of the lower limb onto it, preventing excessive compression on the back thigh surface and promoting blood circulation to the heart. 
base finishes	Polished aluminium
armrests and elbow-rests finishes	Polished aluminium Upholstered
