

## PASSEPARTOUT

Cabinet for separate waste collection

**FREZA**

p

### TECHNICAL DATA

structure (sides, bottom and back)	<u>melamine</u> : 18 mm thick chipboard (density 720 kg/m <sup>3</sup> , formaldehyde emission compliant with EU Regulation 2023/1464 and EPA TSCA Title V) for sides and bottom (edged with 0.45 mm thick ABS) and 12 mm thick for back, finished with anti-reflex melamine resins. The sides and bottom have milled slots for inserting the back. The structure is completed by a bar made of 1.5 mm thick steel sheet, suitably bent and fixed to the sides with screws. The structure is equipped with 5 standard circular 1" high ABS feet. Alternatively, 1"1/8 high square ABS feet are available. All feet allow +10 mm adjustment for levelling.
door	<u>melamine</u> : 18 mm thick chipboard (density 720 kg/m <sup>3</sup> , formaldehyde emission compliant with EU Regulation 2023/1464 and EPA TSCA Title V), finished with anti-reflex melamine resins and ABS edging (2 mm thick with rounded edges). The hinges are made of steel with 110° opening and an integrated soft-closing mechanism to dampen the door closure. The left door is equipped with a PVC profile that also acts as a dust barrier. The doors are designed for handles with a 5" pitch.
top	The top is divided into three parts, allowing the cabinet to be opened and closed from above to access the three containers inside. Each section of the top is equipped with two steel hinges with a 110° opening angle and soft-closing mechanism to dampen the closure. <u>melamine</u> : 18 mm thick chipboard (density 720 kg/m <sup>3</sup> , formaldehyde emission compliant with EU Regulation 2023/1464 and EPA TSCA Title V) finished with anti-reflex melamine resins and ABS edging (2 mm thick with rounded edges).
bins	Inside the cabinet there are 3 cardboard containers, each with two holes that act as handles. Dimensions: W. 11"1/2 D. 15"3/8 H. 25"5/8
