PEDESTALS

Metal pedestal on castors

TECHNICAL DATA

structure (sides, top and backrest)	metal: made of steel sheet. On the lower side of the structure there are two steel-sheet beams fitted with threaded inserts for fastening swivel nylon castors (Ø 37 mm, 2 castors per beam) without brakes. All metal parts are coated with embossed epoxy-polyester powder paint.
front panels	metal: made of steel sheet coated with epoxy-polyester powder paint (coating thickness: 80 µm). The lock is positioned on the upper front panel and is fitted with a removable cylinder, allowing the key code to be changed. Two operating keys are supplied, one of which is folding. The fronts are equipped with a side grip for opening and plastic buffers to dampen noise during closing.
drawers	metal: made of steel sheet coated with epoxy-polyester powder paint, black (for the black pedestal), grey (for the grey and white pedestals), mounted on partial-extension roller runners with a soft-closing mechanism.
dimensions (in cm)	W: 42 / D: 53 / H: 56
structure finish	**aluminium legs** ZGBI White embossed painted RAL 9010 ZGAS Aluminium embossed painted RAL 9006 ZGNE Black embossed painted RAL 9005

OPTIONS

1. extensible stationary tray	made of polystyrene and featuring various compartments. The tray can be adjusted to accommodate different drawer sizes and hooks onto the drawer sides. Dimensions: W. 32-45 cm.
2. cushion	made of polyurethane foam upholstered with a fire-retardant fabric. Two double-sided Velcro strips are applied to the underside for fixing it to service units.
