

TECHNICAL DETAILS

unibody	Shaped beech plywood unibody with differentiated density polyurethane padding. Available with low backrest.
armrests	- <u>die-cast aluminium</u> armrests with upholstered elbow-rests in the same colour as the seat. - <u>in pressed and bent beech plywood</u> with <u>light walnut or rosewood lacquer finish</u> . (Pulchra Wood)
device	<u>tilting device lockable in 4 positions</u> (Multiblock), with frontal adjustment of the backrest resistance in relation to the user's weight and anti-shock release system. This mechanism allows the user to change position while maintaining the correct trunk/thigh angle. The anti-shock release system allows the user to control the movement of the backrest upon release.

height adjustment	by gas lift. it allows an excursion of 10 cm.
base	- <u>5-star base</u> in polished aluminium with self-locking, dual-tread, rubbered, swivel castors (Ø 65 mm). - <u>5-star base</u> with load-bearing steel body covered by a protective <u>solid wood</u> casing with light walnut or rosewood stain, with self-locking, dual-tread, rubbered, swivel castors Ø 50 mm (Pulchra Wood).

ergonomics

Pulchra is equipped with the necessary mechanisms for proper and comfortable use, even for prolonged periods, as long as the following conditions are met: the standard sitting position requires maintaining angles of 90° between torso and thigh, between thigh and leg, and between leg and foot. These last two angles are essential so that the foot, resting completely on the surface below, discharges part of the weight of the lower limb onto it, preventing excessive compression on the back thigh surface and promoting blood circulation to the heart.

finishes base

- Polished aluminium
- Light walnut
- Rosewood
