

PULCHRA

Pulchra - Visitor chair

FREZZA

TECHNICAL DETAILS

unibody Shaped beech plywood unibody with differentiated density polyurethane padding. Available with low backrest.

adjustment in height by gas lift. It allows an excursion of 10 cm.

Right lever adjusts the height of the seat

base 5-star base in polished aluminium with self-locking, dual-tread, rubbered, swivel castors (Ø 65 mm).

cantilever frame - cantilever frame in chrome-plated oval tubular steel with reinforcing core in the front curvature.
- cantilever frame in beech plywood coated with a light walnut or rosewood finish. (Pulchra Wood)

ergonomics Pulchra is equipped with the necessary mechanisms for proper and comfortable use, even for prolonged periods, as long as the following conditions are met: the standard sitting position requires maintaining angles of 90° between torso and thigh, between thigh and leg, and between leg and foot. These last two angles are essential so that the foot, resting completely on the surface below, discharges part of the weight of the lower limb onto it, preventing excessive compression on the back thigh surface and promoting blood circulation to the heart.
