FREZZA

TECHNICAL DATA

design M. Armani

base	The base is made of matt-painted concrete and features a fluid, continuous undulating design (Ø 52 cm). It is available in two heights: H. 30 cm and H. 35 cm. The structure is not equipped with adjustable levelling feet; instead, felt pads are applied to the underside to protect floor surfaces.
top	<u>melamine</u>: from 12 mm thick chipboard (density 720 kg/m³, formaldehyde emissions compliant with EU Regulation 2023/1464 and EPA TSCA Title VI), finished with anti-glare melamine resin and edged with 2 mm thick ABS edging with rounded corners. The top is secured to the base by means of three 4 mm thick steel plates. <u>matt painted mdf</u>: made from 25 mm thick mdf (density 830 kg/m³, formaldehyde emissions compliant with EU Regulation 2023/1464 and EPA TSCA Title VI), powder-coated with a matt finish and featuring 40 mm radius edges. The top is secured to the base by means of three 4 mm thick steel plates. <u>wavy glass painted under side</u>: made from 12 mm thick extra-clear tempered glass, compliant with EN 12150, featuring rounded edges and painted on the underside with water-based coatings. The top is fitted with a 25 mm thick melamine under-top panel. The under-top panel is secured to the base by means of three 4 mm thick circular steel plates. <u>veneer</u>: 25 mm thick top made of mdf (density 830 kg/m³, formaldehyde emissions compliant with EU Regulation 2023/1464 and EPA TSCA Title VI), featuring 40 mm rounded edges and veneered on both sides with natural wood veneer using a membrane press process. The surfaces are finished with acrylic-based stains. The top is secured to the base by means of three 4 mm thick steel plates. The tops are available in two geometric shapes: round and square.
