TECHNICAL DATA

design M. Armani

internal structure	The internal structure is made from 18 mm thick melamine-faced chipboard (density 720 kg/m ³ , formaldehyde emissions compliant with EU Regulation 2023/1464 and EPA TSCA Title VI), finished with anti-reflex melamine resin and edged with ABS. The structure also includes a 38 mm thick internal partition in the same finish and is supported by a plinth made from 50 mm thick MDF (density 830 kg/m ³ , formaldehyde emissions compliant with EU Regulation 2023/1464 and EPA TSCA Title VI), powder-coated with a matt finish. The underside is fitted with 5 or 6 levelling feet (Ø 40 mm, H. 7 mm), allowing up to +10 mm height adjustment for floor levelling.
doors	<u>matt painted mdf doors</u>: 20 mm thick mdf doors (density 830 kg/m³, formaldehyde emissions compliant with EU Regulation 2023/1464 and EPA TSCA Title VI), powder-coated with a matt finish. The doors are equipped with a push-pull system and hinges allowing an opening angle of 110°. No lock is provided. <u>veneer doors</u>: 20 mm thick mdf doors (density 830 kg/m³, formaldehyde emissions compliant with EU Regulation 2023/1464 and EPA TSCA Title VI), veneered on both sides with natural wood veneer. The surfaces are finished with acrylic-based stains. The doors are equipped with a push-pull system and hinges allowing an opening angle of 110°. No lock is provided. <u>fabric-upholstered door with fabric handle</u>: 33 mm thick mdf doors (density 830 kg/m³, formaldehyde emissions compliant with EU Regulation 2023/1464 and EPA TSCA Title VI) and upholstered in fabric. The door features a distinctive undulating profile and is fitted with a fabric handle in the same upholstery material, allowing the door to be opened by pulling. The doors are equipped with hinges allowing an opening angle of 110°. No lock is provided.
finishing back panel	<u>matt painted mdf back panel</u>: 20 mm thick back panel made of MDF (density 830 kg/m³, formaldehyde emissions compliant with EU Regulation 2023/1464 and EPA TSCA Title VI), powder-coated with a matt finish. <u>veneer back panel</u>: 20 mm thick mdf back panel (density 830 kg/m³, formaldehyde emissions compliant with EU Regulation 2023/1464 and EPA TSCA Title VI), veneered on both sides with natural wood veneer. The surfaces are finished with acrylic-based stains.
cupboard with top and sides in the same finish MV - W	<u>matt painted top and sides (MV)</u>: 25 mm thick mdf top and side panels (density 830 kg/m³, formaldehyde emissions compliant with EU Regulation 2023/1464 and EPA TSCA Title VI), powder-coated with a matt finish <u>wood veneer top and sides (W)</u>: 25 mm thick mdf top and side panels (density 830 kg/m³, formaldehyde emissions compliant with EU Regulation 2023/1464 and EPA TSCA Title VI), veneered on both sides with natural wood veneer. The surfaces are finished with acrylic-based stains.

cupboard with wavy glass painted under side top side top MV + VI W + VI	<u>wavy glass painted under side top</u> : made of 12 mm thick extra-clear tempered glass, compliant with EN 12150, featuring rounded edges and painted on the underside with water-based coatings.
	<u>matt painted mdf sides (MV + VI)</u> : 25 mm thick mdf side panels (density 830 kg/m³, formaldehyde emissions compliant with EU Regulation 2023/1464 and EPA TSCA Title VI), powder-coated with a matt finish.
	<u>veneer sides (W + VI)</u> : 25 mm thick mdf side panels (density 830 kg/m³, formaldehyde emissions compliant with EU Regulation 2023/1464 and EPA TSCA Title VI), veneered on both sides with natural wood veneer. The surfaces are finished with acrylic-based stains.
